The Imperial Orchestra proved itself a capable combination, and the trombone solo, The Holy City, by F. N. Warner, was beautifully rendered."

FUNERALS IN NORTHFIELD.

Of Dr. Edwin Porter, William Sears and Albert Jennings.

Northfield, March 23.—The funeral of the late Dr. Edwin Porter was held Saturday afternoon at the Congregational church at 2, the Rev. James R. Sargent officiating. The bearers were Benjamin Porter, Andrew E. Denney, John L. Moseley, Dr. J. H. Jenkins, Charles M. Davis and L. A. Howes. The body was placed in the tomb at Elmwood. One company of infantry from the corps of cadets at Norwich university, of which institution the deceased was a trustee for many years, escorted the body to the tomb.

The funeral of William Sears, who died on Friday from a recent operation, took place yesterday at his home, the Rev. E. W. Sharp officiating. The deceased was 47 years old and leaves a wife and four children. Burial was made in the Center cemetery.

The body of Albert Jennings was brought here from Burlington Saturday night, where he died at the Mary Fletcher hospital, from injuries, received Thursday while sawing wood. The funeral took place at the Methodist church this afternoon at 2 o'clock. Rev. E. W. Sharp officiating. The body was placed in the tomb at Elmwood. Mr. Jennings was about 44 years of age and is survived by a widow and three sons.

COL. J. W. FAIRFAX DEAD.

Was Known in Civil War as "Long-street's Fighting Aide."

Richmond, Va., March 23.—Col. John Walter Fairfax died yesterday at his home, Leesylvania, Va., in his 80th year. He was a well known veteran of the Civil War, having held the rank of colonel in the Confederate army. In 1864 he succeeded Colonel Sorrel as ranking officer on the staff of General Longstreet. Owing to his dash and gallantry Colonel Fairfax has been characterized in history as "Longstreet's fighting aide."

No personage in Virginia, perhaps embodied more uniquely the characteristics of the old time Southerner than did Col. Fairfax. Typically a creation of the social conditions that prevailed in Virginia three quarters of a century ago, his quality had never changed through transition to the new order of southern life that followed the abolition of slavery.

THE DOWAGERS.

Titled Widows Go to the Rear in the Social Procession.

Little sympathy is bestowed on titled widows after the first few days of their bereavement. Of course when an earl dies his widow remains a countess, but with the unwelcome addition "dowager," which often is misleading as far as her age is concerned. Thackeray, although he professed good breeding, looked on dowager duchesses as fair targets for sarcasm. So did Du Maurier, though the only offense of the poor women was that they had lost their husbands. It is a double blow to a woman of title when her husband dies, for if grief leaves her time for reflection she realizes that, no matter how young she may be, she is relegated to the rear in the social procession. The new duchess or marchioness or countess steps into the limelight, and the dowager is lucky to find a place in the last row of the chorus, for the very term implies old womanhood, and in most cases she only wastes time if she combats the impression.

Ordinary widows may have better chances for matrimony than debutantes, though that's doubtful. Dowagers seldom contract new marriages, for few men have courage to lead them to the altar. So in all the affairs of society they make the best of the custom that dictates they shall follow meekly in the wakes of their fattened daughters-in-law.—New York Press.

The Martian Sky.

The clearness of the Martian sky comes in to abet the greater transmission of its air. From dawn till dusk day after day in the summer season and largely in winter the sun shines out of a heaven innocent of cloud. No shield of the sort and only a little screen of air tempers its beams to the soil held up to it. Such an exposure far exceeds anything we have on earth, for with us, even in the tropics, clouds gather as soon as the heating grows excessive and cool the air by plumps of rain.—Percival Lowell in Century.

Heard at the Drama.

Mrs. Ryetop—John, how much time elapses between the second and third acts? Mr. Ryetop—The programme says six months, Maria. Mrs. Ryetop (aghast)—Six months, John? Lands, we can't wait! Why, them backstreet cakes I left to rot will have gone clear through the roof by that time!—Chicago News.

It requires the expenditure of eight times the energy to go upstairs that is required for the same distance on the level.

The Daylight Store

OUR COURAGE

Is good. Mr. Morse is in New York now finishing up our Spring buying. You will find our usual good assortment and if the strike is not settled we will be just as anxious to sell as in former seasons. (The chances are a little more anxious.) Many jobbers are overloaded, this has given us a chance to buy well for this season's business.

OUTING FLANNELS

These are at a less price than we have been able before to sell them and see our money back.

A good 23-inch White Outing now at 5c.

A good 27-inch White Outing now at 6c.

33-inch Heavy Outing that earlier sold at 12½c, now at 10c.

Bleached Outing now at 8c and 9c, also a heavy twilled Bleached Outing now at only 10c (2c saving here).

Just received a new lot of colored figured Scrims that are new and cheap.

One of the best and newest things for such and cottage curtains and the price is but 15c per yard.

We have a Champagne Chiffon with embroidered light blue dots at only 18c per yard. (Very new.)

WASH GOODS

We keep harping on Wash Goods for the reason: We can save you a little money here, give you a good assortment in colorings that are right.

For a cheap one we are selling a fairly good Apron Gingham at 5c per yard.

At 10c we are selling a good Gingham, all in new styles, as well as the plain colors.

At 12½c you will find such values as 32-inch Renfrew Gingham that sell in a regular way at 18c. These come in unmarked pieces and sell at but 12½c.

Our Crepe Chiffons with colored figures is one of the best values ever in our store, made to sell at 25c, now selling at 15c. It is a great value. We do not take this loss, it is taken by a jobbing house.

SUESINE SILKS

The reason that we are pushing Suesine Silks so hard is not that there is as good or better profit in them as in other makes; on the contrary, it is because they are so much superior to other kinds at anywhere near the price, 47½c yard (all colors).

Trained and Armstrong Taffetas 27 inches wide at \$1.00, is a better silk at the price or at any price than you can buy. (Sounds like bragging.) Comes in all colors and is confined to us.

We have lots of faith and lots of customers in our Trained and Armstrong Black Taffeta that we are selling at \$1.27½.

We have a 23-inch Imported Black Taffeta at \$1.00 per yard that will be very hard to match.

BURNED FOR CENTURIES.

Curious Stories of the Wonderful Lamps of the Ancients.

When the tomb of Pallas, son of Evander, who is mentioned by Virgil, was discovered about the twelfth century by a countryman digging near Rome, it is said that a lamp was still burning over his head, which must have been lighted more than 2,000 years before.

Baptista Porta in his treatise on natural magic relates that about 1350 a marble sepulcher of the Roman period was discovered in an island near Naples. On opening the room was found a vase containing a burning lamp. The lamp became extinct on breaking the vase and exposing the lamp to the open air. It was supposed that it had been concealed before the Christian era, and those who saw it reported that the lamp emitted a splendid flame.

In 1550 a remarkable lamp was found near Ateates, Padua, by a rustic, who unheeded a terra cotta urn containing another urn in which was a lamp placed between two cylindrical vessels, one of gold and the other of silver. Each was full of a very pure liquid by whose virtue the lamp had been kept shining upward of 1,500 years.

This curious lamp was not meant to scare away evil spirits from a tomb, but was an attempt to perpetuate the profound knowledge of Maximus Olympus, who effected this wonder by his skill in the chemical art.
